Education

University of Wisconsin–Madison

Jan 2024 – May 2025

Master of Science in Computer Science

Madison, Wisconsin

- Coursework: Human-Computer Interaction, Data Visualization, Data Management, Big Data Systems, Data Exploration and Integration for Data Science, Virtual Reality (Unity), Ethics in Computer Science

University of Wisconsin–Madison

Sep 2019 – Dec 2023

Bachelor of Science in Computer Science, minors in Data Science and Chicano & Latino Studies

Madison, Wisconsin

- Coursework: Object-Oriented Programming (Java), Data Structures and Algorithms (Java), Data Science Programming (Python), User Interfaces (JavaScript, React), Android App Development (Java, Kotlin), Theory of Programming Languages (JavaScript, Haskell, C++, Rust), Machine Learning, Human-Computer Interaction, Data Modeling (R)

Work Experience

Target Corporation

Jun 2024 – Aug 2024

Software Engineer Intern

Minneapolis, Minnesota

- Designed and deployed an installation guide with TypeScript and React, ensuring a seamless user experience
- Created detailed wireframes with Adobe XD to effectively visualize and contextualize the user interface design
- Performed thorough cross-browser compatibility testing to ensure consistency across multiple web browsers and devices
- Collaborated within an Agile ecosystem, contributing to a 5-year initiative to catalog over 6 million enterprise assets

Intel Corporation

Nov 2023 – Jan 2024

Software Engineer Intern

Hillsboro, Oregon

- Developed Python script for file modification tracking across a multi-user environment, reducing manual efforts by 20%
- Optimized script performance, enhancing data processing efficiency and significantly reducing system load by 50%
- Conducted thorough testing and debugging to ensure accuracy and reliability in file tracking across diverse scenarios
- Streamlined the script integration into existing workflows, reducing processing time by 17% and boosting efficiency

Target Corporation

Jun 2023 – Aug 2023

Software Engineer Intern

Minneapolis, Minnesota

- Created a responsive web application in TypeScript and React, improving user experience and enhancing engagement
- Engineered API endpoints using Kotlin, improving data communication between front-end and back-end systems
- Implemented PostgreSQL with DBEaver, optimizing complex queries and data retrieval for high-traffic environments
- Leveraged Insomnia for API testing, ensuring comprehensive validation, error handling, and reliable data integration

The J.M. Smucker Company

May 2022 – Aug 2022

Software Engineer Intern

Orrville, Ohio

- Redesigned Oracle APEX app for enhanced supply chain product tracking, resulting in a 24% increase in efficiency
- Engineered a Bash shell script that automated task execution, reducing after-hours support needs by 50%
- Conducted comprehensive testing and debugging to ensure smooth migration between legacy and replacement systems

Projects

Full-Stack Developer | RachaelTLang.com

- Designed and developed a website from scratch using HTML, CSS, and React, with a focus on usability and accessibility
- Implemented and continuously improved features for web responsiveness to ensure an inclusive user experience

Researcher and Author | Python Performance Test

- Benchmarked Python 3.10 vs. 3.11 to assess performance improvements reported by the Python Software Foundation
- Authored a detailed 3-page report summarizing the processes and methodologies employed in an effective manner

Data Analyst | Python Recipe Generator

- Transformed raw CSV data into a structured Python DataFrame, enabling efficient data manipulation and analysis
- Developed an innovative application generating 150+ unique recipes using over 100 distinct ingredients from the dataset
- Led a team of 4, coordinating responsibilities and ensuring effective collaboration throughout the hackathon

Technical Skills

Certifications: IBM AI Fundamentals, Google Intro to GenAI, LinkedIn Cybersecurity, LinkedIn Foundations of DEI

Languages: Java, Python, C/C++, JavaScript, TypeScript, HTML/CSS, R, SQL, Bash, Assembly, Chinese, Spanish

Developer Tools: React, Linux, Git, Agile, Docker, Figma, RStudio, Android Studio, Tableau, Unity, Insomnia, Postman
