Education

University of Wisconsin–Madison

Jan 2024 – May 2025

Master of Science in Computer Science

Madison, Wisconsin

- Coursework: Human-Computer Interaction, Data Visualization, Data Management, Big Data Systems, Data Exploration and Integration for Data Science, Virtual Reality (Unity), Ethics in Computer Science

University of Wisconsin–Madison

Sep 2019 – Dec 2023

Bachelor of Science in Computer Science, minors in Data Science and Chicano & Latino Studies

Madison, Wisconsin

- Coursework: Object-Oriented Programming (Java), Data Structures and Algorithms (Java), Data Science Programming (Python), User Interfaces (JavaScript, React), Android App Development (Java, Kotlin), Theory of Programming Languages (JavaScript, Haskell, C++, Rust), Machine Learning, Human-Computer Interaction, Data Modeling (R)

Work Experience

Target Corporation

Jun 2024 – Aug 2024

Front-End Developer Intern

Minneapolis, Minnesota

- Built an interactive installation guide using TypeScript and React, ensuring a seamless user experience
- Designed over 10 wireframes in Adobe XD to accelerate design feedback loops and support a scalable UI strategy
- Performed cross-browser testing across multiple browsers to maintain responsive UI standards and accessibility
- Supported 5+ year Agile initiative managing a centralized catalog of over 6 million enterprise assets

Intel Corporation

Nov 2023 – Jan 2024

Software Engineer Intern

Hillsboro, Oregon

- Developed Python script tracking file changes, reducing manual reporting effort by 20% across a multi-user environment
- Optimized script performance, enhancing data processing efficiency and significantly reducing system load by 50%
- Created unit tests and handled edge cases for accuracy, improving script reliability across shared network drives
- Integrated tracking tool into production workflows, reducing execution time by 17% and increasing throughput

Target Corporation

Jun 2023 – Aug 2023

Full-Stack Developer Intern

Minneapolis, Minnesota

- Built a responsive web application with React and TypeScript, improving user experience and dashboard engagement
- Engineered Kotlin-based REST APIs to connect microservices, streamlining data flow between systems by 30%
- Tuned PostgreSQL queries using DBeaver, achieving 20% faster query performance in high-traffic environments
- Validated 100+ API calls with Insomnia, ensuring robust error handling and accurate response serialization

The J.M. Smucker Company

May 2022 – Aug 2022

Software Engineer Intern

Orrville, Ohio

- Revamped Oracle APEX app to modernize UI and improve overall supply chain tracking efficiency by 25%
- Wrote Bash scripts automating over 10 routine tasks, reducing after-hours support requests and alerts by 50%
- Executed full system migration with extensive regression testing to ensure compatibility across platforms

Projects

Full-Stack Developer | RachaelTLang.com

- Designed and developed a website from scratch using HTML, CSS, and React, with a focus on usability and accessibility
- Implemented and continuously improved features for web responsiveness to ensure an inclusive user experience

Researcher and Author | Python Performance Test

- Benchmarked Python 3.10 vs. 3.11 to assess performance improvements reported by the Python Software Foundation
- Authored a detailed 3-page report summarizing the processes and methodologies employed in an effective manner

Data Analyst | Python Recipe Generator

- Parsed 500+ entries into a structured DataFrame, enabling dynamic filtering and recipe creation in Python
- Generated 150+ custom recipes using 100+ ingredients, building a full-stack app in a 24-hour hackathon sprint
- Led 4-person hackathon team through planning and review, ensuring smooth collaboration and on-time delivery

Technical Skills

Certifications: IBM Web Development, Google UX, Asana Workflow Specialist, Equity-Oriented Leadership

Languages: Java, Python, C/C++, JavaScript, TypeScript, HTML/CSS, R, SQL, Bash, Assembly, Chinese, Spanish

Developer Tools: React, Linux, Git, Agile, Docker, Figma, RStudio, Android Studio, Tableau, Unity, Insomnia, Postman
